## **NEW CONSTRUCTION** IS STABILIZED

Decision of War Industries Board Cheers Builders and Material Makers.

PLAN ANNOUNCED

Council of National Defence to Consider Projects and Make

Recommendations.

New war time building rules issued by the War Industries Board reveal that jurisdiction in the matter of building construction has been placed in the hands of the Mayor's Committee of the Council of National Defense as far as in New Jersey will come under the jurisliction of the State Councils of Nationa will be named probably this week by Henry McDonald, director-general of the State Council at a conference to be held either to-day or to-morrow at his offices in the Hall of Records, says the Dow Service Daily Building Reports to-day. This committee will have full jurisdic-tion in the matter of passing upon pro-

jected local building plans. Highway work will not be handled by Highway work will not be handled by this committee, according to present plans, but will be vested entirely with the State Commissioner of Highways for New York and New Jersey.

Surveys have been ordered on all huilding activities in the territories in the jurisdiction of the local representatives of the Council of National Defense theory.

through their respective State chairmen

The encouraging feature about this payment. The Hunts Point avenue as new turn in offairs is that instead of crty was reported sold Wednesday. eix boards or bureaus having jurisdiction over building construction and ma-terial supply, the War Industries Board, the State Councils of National Defence, the Department of Labor, the Capital Issues Committee and, in a way, the Fuel Administration, under this plan are all coordinated and the possibility of onflict of orders governing the essen-ality of proposed construction is en-

six or eight months. Building operations having full justification for proceeding will have the opportunity of laying the merits of their proposition before a tribunal vested with definite authority. It will give the building material manufacturers more definite bases upon which figure present and future market de
